ENDANGERED SPECIES ACT COMPLIANCE STATEMENT:	<p>The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.</p> <p>Prospective purchasers are encouraged to contact the Southwest Oregon ODF District at (541) 474-3152 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.</p>

Biological Survey Report

Project: Coleman Cleansing
Date: March 11, 2003
To: Jasen King
CC: Jeff Schwanke, District Sale File
From: Marcia Humes

Habitat Suitability

This sale does not contain potentially suitable habitat for northern spotted owls. This sale is beyond the known inland range of the marbled murrelet.

Survey Results

Survey for northern spotted owls and marbled murrelets are not necessary for this sale.

Known T&E Resources

This sale is within 1.3 miles of three northern spotted owl activity centers. A biological assessment has been completed for this sale. This assessment concludes that the sale has a low risk of negatively affecting spotted owl sites because it is not modifying suitable habitat.

U.S. Fish and Wildlife Service reviewed a preliminary biological assessment for this sale, and communicated concern about a risk of incidental take to one of the three spotted owl sites. Following their comments, all suitable habitat was removed from the sale. U.S. Fish and Wildlife Service has not reviewed the final biological assessment.

Operational Considerations

There are no seasonal operating restrictions or felling deadlines associated with threatened or endangered species for this sale.

Future Survey Plans

There are no future survey plans for this sale. However, ODF will continue monitoring surveys at northern spotted owl activity centers within 1.3 miles of the sale area, during the life of the contract.
