Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls. It does not contain potentially suitable habitat for marbled murrelets.

Survey Results

This sale was surveyed for northern spotted owls in 2001 and 2002, using a protocol endorsed by the U.S. Fish and Wildlife Service¹. There were no observations of northern spotted owls during any of these surveys. Surveys for marbled murrelets are not necessary.

Known T&E Resources

There are no known northern spotted owl activity centers within 1.5 miles or Marbled Murrelet Management Areas within 0.25 miles of this sale.

Operational Considerations

Northern spotted owl survey results are valid until March 15, 2005. All timber should be felled by March 15, 2005.

Future Survey Plans

ODF has no plans for further survey of these sales. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
