ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

Biological Survey Report -- Revised

Project: Angle Loop No. 1
Date: July 5, 2005
To: Barbara Moore
CC: Ross Holloway, District Sale File
From: Marcia Humes

Habitat Suitability

This sale contains suitable habitat for northern spotted owls and potential habitat for marbled murrelets.

Survey Results

This sale was surveyed for northern spotted owls in 2003 and 2004, using a protocol endorsed by the U.S. Fish and Wildlife Service¹. On one occasion in 2004 a northern spotted owl was observed during these surveys. Additional visits in 2004 resulted in no further observations of northern spotted owls, and the response from 2004 was determined to be a non-territorial single (or "floater") owl. This sale is being surveyed again in 2005.

Surveys for marbled murrelets were conducted in 2003 and 2004, using a protocol developed by the Pacific Seabird Group². There were several observations of marbled murrelets during these surveys, including one subcanopy observation at Pickett Loop site 3, indicating occupancy. Because this site is considered to be occupied, it was not surveyed again in 2004.

Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles of this sale.
