**ENDANGERED SPECIES
ACT COMPLIANCE
STATEMENT:**

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at 503-842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

Biological Survey Report

Project: New Miami
Date: August 23, 2005
To: Barbara Moore
CC: Ross Holloway, District Sale File
From: Marcia Humes

Habitat Suitability

This sale contains suitable habitat for northern spotted owls and potential habitat for marbled murrelets.

Survey Results

This sale was surveyed for northern spotted owls in 2003, 2004, and 2005, using a protocol endorsed by the U.S. Fish and Wildlife Service¹. A northern spotted owl was observed during one survey in 2005. Follow up surveys resulted in no further responses from northern spotted owls. The response was attributed to a known activity center greater than 1.5 miles from the sale area.

Surveys for marbled murrelets were conducted in 2003, 2004, and 2005, using a protocol developed by the Pacific Seabird Group². Murrelets were detected as present during one survey visit in 2003. However, behaviors indicating murrelet occupancy were not observed. Surveys in 2004 and 2005 yielded no further observations of murrelets.

Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles or Marbled Murrelet Management Areas within 0.25 miles of this sale.

Operational Considerations

Current northern spotted owl survey results are valid until March 15, 2008. Marbled murrelet survey results are valid until April 1, 2011. All timber should be felled by March 15, 2008.

Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
