STATEMENT:**

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

**SPECIAL REMARKS:**

**SEASONAL RESTRICTIONS APPLY - SEE SECTION 2455.**

Acreage was calculated from GIS digital orthophotos.

All felling on the timber sale area is required to be completed by March 15, 2008.

Vacating on Road Segment G to H shall be completed between July 1, 2006 and September 15, 2006.

See Logging Plan in Cruise Report for acres expected to be partial cut.

**SALE OBJECTIVES:**

### Habitat Suitability

This sale contains suitable habitat for northern spotted owls and potential habitat for marbled murrelets.

### Survey Results

This sale was surveyed for northern spotted owls in 2001, 2002, 2003, 2004 and 2005, using a protocol endorsed by the U.S. Fish and Wildlife Service<sup>1</sup>. There was one observation of a spotted owl in 2004. Additional visits in 2004 and 2005 resulted in no further observations of northern spotted owls, and the response from 2004 was determined to be a non-territorial single (or "floater") owl.

Surveys for marbled murrelets were conducted in 2000, 2001, 2003, 2004 and 2005, using a protocol developed by the Pacific Seabird Group<sup>2</sup>. Murrelets were detected as present during these surveys. However, behaviors indicating occupancy were not observed.

### Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles or Marbled Murrelet Management Areas within 0.25 miles of this sale. However, portions of the

haul routes from the sale are within 330 feet of a Marbled Murrelet Management Area (MMMA).

### Operational Considerations

Seasonal operating restrictions will be in effect from April 1 through September 15, annually on haul routes within 330 feet of a Marbled Murrelet Management Area. Operations may be allowed from 2 hours after sunrise until 2 hours before sunset from August 6 through September 15, annually.

Current northern spotted owl survey results are valid until March 15, 2008. Marbled murrelet survey results are valid until April 1, 2010. All timber should be felled by March 15, 2008.

### Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
