STATEMENT:

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS:

SEASONAL RESTRICTIONS APPLY - SEE SECTION 2455.

Acreages were determined using ortho photographs and GIS.

Felling Areas 3 and 4 must be completed by March 15, 2008.

Access to the crushed rock source shown on Exhibit A for the rock crusher may not be available until July 1, 2006.

Purchaser is required to coordinate harvesting operations with the Tillamook Public Utility District and Oregon State Police when operating adjacent to power lines in Area 4.

Bridge design and construction documents are available at the Tillamook District Office.

SALE OBJECTIVES:

Harvest of overstocked, off-site seed source Douglas-fir with symptoms of Swiss needle cast and harvest of alder to prepare for replanting with a mixture of native conifer species.

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

"STEWARDSHIP IN FORESTRY"

Biological Survey Report

Project: Relay Tower
Date: October 26, 2005
To: Bob Teran
CC: Ross Holloway, District Sale File
From: Marcia Humes *Marcia*

Habitat Suitability

This sale contains suitable habitat for northern spotted owls in Areas 3 and 4. Areas 1 and 2 are located within the historic Tillamook burn. By ODF policy northern spotted owl surveys are not required for Areas 1 and 2.

This sale does not contain potential habitat for marbled murrelets.

Survey Results

Areas 3 and 4 were surveyed for northern spotted owls in 2004 and 2005, using a protocol endorsed by the U.S. Fish and Wildlife Service¹. Northern spotted owls were not observed during these surveys.

Surveys for marbled murrelets are not necessary for this sale.

Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles or Marbled Murrelet Management Areas within 0.25 miles of this sale.

Operational Considerations

Current northern spotted owl survey results are valid until March 15, 2008. All timber should be felled by March 15, 2008.

¹ USDI Fish and Wildlife Service. 1991, revised 1992. Protocol for surveying proposed management activities that may impact northern spotted owls. 15pp.

Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract. Additional surveys, as part of an investigation into the presence or absence of spotted owls use in the Tillamook Burn, will occur within 3 miles of this sale.
