### Habitat Conservation Plan Area

This sale is within an area covered by a Habitat Conservation Plan (HCP) approved by the U. S. Fish and Wildlife Service. The Incidental Take Permit (ITP) for the HCP covers northern spotted owls. Under the provisions of this HCP, surveys are not required for northern spotted owls.

### Habitat Suitability

This sale contains potential habitat for marbled murrelets.

### Survey Results

Surveys for marbled murrelets were conducted in 2004 and 2005, using a protocol developed by the Pacific Seabird Group<sup>1</sup>. Murrelets were detected as present during two survey visits in 2004 and one survey visit in 2005. However, behaviors indicating occupancy were not observed.

### Known T&E Resources

The sale is located within 0.25 miles of a Marbled Murrelet Management Area (MMMA). A new road will be constructed to access the sale area that goes through the MMMA. A Biological Assessment of the road's impact has been conducted. It concludes that the road construction poses a low risk to marbled murrelets nesting within the MMMA and should not increase detrimental impacts to nesting murrelets.

Methods for surveying marbled murrelets in forests: an update to the protocol for land management and research, by the Pacific Seabird Group Marbled Murrelet Technical Committee. 76 pp.

## Operational Considerations

Seasonal operating restrictions are required for portions of this sale and associated road construction within 330 feet of the MMMA. Operations may be allowed from 2 hours after sunrise until 2 hours before sunset from August 6 through September 15, annually.

Marbled murrelet survey results are valid until April 1, 2011. All timber should be felled by April 1, 2011.

## Future Survey Plans

ODF has no plans for further survey of this sale.
