## Biological Survey Report

**Project:** Filosi Moss  
**Date:** April 4, 2006  
**To:** Barbara Moore  
**CC:** Ross Holloway, District Sale File  
**From:** Marcia Humes *Marcia*

### Habitat Suitability

This sale contains suitable habitat for northern spotted owls and potential habitat for marbled murrelets.

### Survey Results

This sale was surveyed for northern spotted owls in 2004 and 2005, using a protocol endorsed by the U.S. Fish and Wildlife Service<sup>1</sup>. A northern spotted owl was observed on one occasion in 2005. Additional visits during 2005 resulted in no further observations of northern spotted owls, and the response from 2005 was determined to be a non-territorial single (or "floater") owl.

Surveys for marbled murrelets were conducted in 2004 and 2005, using a protocol developed by the Pacific Seabird Group<sup>2</sup>. Murrelets were detected as present at site 1 during one survey in both 2004 and 2005. However, behaviors indicating occupancy were not observed.

### Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles or Marbled Murrelet Management Areas within 0.25 miles of this sale.

Unpublished report for the Pacific Seabird Group Marbled Murrelet Technical Committee. 76 pp.

## Operational Considerations

Current northern spotted owl survey results are valid until March 15, 2008. Marbled murrelet survey results are valid until April 1, 2011. All timber should be felled by March 15, 2008.

## Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
