The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Klamath-Lake ODF District at (541) 883-5681 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

**To:** Ed DeBlander  
**CC:** Bill Hunt, District Sale File  
**From:** Marcia Humes *Marcia*

### Habitat Suitability

This sale is located in the Sun Pass State Forest, near the edge of the range of the northern spotted owl.

### Survey Results

The Sun Pass State Forest was surveyed for northern spotted owls from 1992 -1994, again in 1999 - 2000, and 2005 - 2006, using standards that meet or exceed protocols approved by the U.S. Fish and Wildlife Service. These surveys are done as monitoring surveys under ODF's Eastern Oregon Long-Range Management Plan. There were no responses to any surveys in 1999, 2000, 2005, and 2006.

### Known T&E Resources

There are no known northern spotted owl activity centers within 1.2 miles of this sale. The northern Annie Creek bald eagle nest site is within 0.5 miles of this sale.

### Operational Considerations

Seasonal operating restrictions will be in effect from January 1 to August 1 for sale areas within 0.5 miles line-of-site of the northern Annie Creek bald eagle site, unless it can be determined that the nest is not being used during that nesting season. There are no other seasonal restrictions associated with threatened, endangered or sensitive species for this sale.

### Future Survey Plans

There are no future survey plans for this sale.
