STATEMENT:

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

Biological Survey Report -- Revised

"STEWARDSHIP IN FORESTRY"

Project: Clatsop Thin
Date: March 16, 2007
To: Evelyn Hukari
CC: Ross Holloway, District Sale File
From: Marcia Humes *Marcia*

Habitat Suitability

This sale contains suitable habitat for northern spotted owls and potential habitat for marbled murrelets.

Survey Results

This sale was surveyed for northern spotted owls in 2005 and 2006, using a protocol endorsed by the U.S. Fish and Wildlife Service¹. Northern spotted owls were not observed during these surveys.

Surveys for marbled murrelets were conducted in 2005 and 2006, using a protocol developed by the Pacific Seabird Group². Murrelets were detected as present in site 1 during one survey in 2006. However, behaviors indicating murrelet occupancy were not observed.

Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles of this sale. This sale is within 0.25 miles of a Marbled Murrelet Management Area (MMMA). A

² Evans, D. M., W. P. Ritchie, S. K. Nelson, E. Kuo-Harrison, Peter Harrison, T. E. Hamer, eds. 2003. Methods for surveying marbled murrelets in forests: an revised protocol for land management and research. Unpublished report for the Pacific Seabird Group Marbled Murrelet Technical Committee. 76 pp.

Biological Assessment of the impacts of project work associated with the sale on the County Line MMMA has been conducted. This assessment concludes that the proposed road improvement within the County Line MMMA poses a low risk to marbled murrelets that may be nesting within the MMMA.

Operational Considerations

Seasonal operating restrictions will be in effect from April 1 through September 15, annually for sale areas within 330 feet of likely nesting habitat within a MMMA. Additional seasonal operating restrictions for project work as described in the Biological Assessment will be in effect.

Consult the Area Biologist to determine whether operations may be allowed from 2 hours after sunrise until 2 hours before sunset from August 6 through September 15, annually.

Current northern spotted owl survey results are valid until March 15, 2009. Marbled murrelet survey results are valid until April 1, 2012. All timber should be felled by March 15, 2009.

Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
