From: Marcia Humes *Marcia*

Habitat Suitability

This sale contains suitable habitat for northern spotted owls. This sale does not contain potential habitat for marbled murrelets.

Survey Results

This sale was surveyed for northern spotted owls in 2005 and 2006, using a protocol endorsed by the U.S. Fish and Wildlife Service¹. Northern spotted owls were not observed during these surveys. Surveys will be conducted again in 2007.

Surveys for marbled murrelets are not necessary for this sale.

Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles or Marbled Murrelet Management Areas within 0.25 miles of this sale.

Operational Considerations

No felling, except for felling associated with project work, shall be allowed prior to the completion of the 2007 northern spotted owl surveys indicating no resident spotted owls.

Current northern spotted owl survey results are valid until March 15, 2009. After the 2007 surveys are completed, the survey results will be valid until March 15, 2010. All timber should be felled by March 15, 2010.

¹ USDI Fish and Wildlife Service. 1991, revised 1992. Protocol for surveying proposed management activities that may impact northern spotted owls. 15pp.

Future Survey Plans

ODF plans to conduct spotted owl surveys in 2007 to extend the duration of the sale contract. In addition, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
