

(Recovery – Scaled Sale)

AUCTION LOCATION: Oregon Department of Forestry
Astoria District Headquarters
92219 Highway 202
Astoria, Oregon 97103
(503) 325-5451 FAX (503) 325-2756
(4 miles SE of Astoria on Highway 202)

HARVEST TYPE: This timber sale is modified clearcut salvage operation of blown down timber located within storm damaged partial cut stands from the John Day Point Thinning (341-03-03) and Walluski Stand Improvement (341-00-03) timber sales.

Areas 1, 2, and 3 – Areas 1, 2, and 3 were “auto-mark” partial cut four-to-seven years ago and consist of stands approximately 65- to 75-years old. These stands consist of moderate-sized western hemlock, Sitka spruce, and other mixed conifer. Windstorms have severely damaged these stands, resulting in large patches of blown-down timber with few standing trees remaining as well as scattered blowdown. These stands will be harvested, removing blown-down timber, root sprung trees, and scattered standing trees which are anticipated to blowdown in subsequent storms.

Areas A and B – Area A was an “auto-mark” partial cut about four years ago and is approximately 42- to 52-years-old, consisting of mixed conifer. Area B is a reforestation progeny site, approximately 30- to 35-years-old, consisting of mainly Douglas-fir with a minor component of western hemlock and other mixed conifer. Windstorms have damaged these stands in several isolated patches. These stands will be harvested, removing blown down timber, root sprung trees, and scattered standing trees which are anticipated to blow down in subsequent storms. Area B will be whole tree yarded and processed at a common landing location.

ROADSIDE SALVAGE: All blown-down trees and standing trees which are leaning at an angle of 10 degrees or more from vertical located within 100 feet of existing rocked roads located within the timber sale areas.

SALE LOCATION: Timber sale areas are located in portions of Sections 13, 24, 27, 33, and 34, T8N, R9W, and portions of Section 3, T7N, R9W, W.M., Clatsop County, Oregon.

DIRECTIONS TO TIMBER SALE AREA: Areas 1 and A can be accessed via John Day Point Road, a rocky forest road off of Highway 30, located just east of Milepost 92, approximately 6 miles east of Astoria.

Areas 2, 3, and B can be accessed via the Christian's County Road, near Milepost 5 on Highway 202.

ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Astoria ODF District at (541) 325-5451 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS: **NO PERSONAL OR COMPANY CHECKS WILL BE ACCEPTED FOR THE BID DEPOSIT.**

SEASONAL RESTRICTIONS APPLY - SEE SECTION 2455.

A key for the gate at John Day Point may be obtained from the Astoria District Headquarters.

Habitat Suitability

This salvage sale does not contain suitable habitat for northern spotted owls. Potential habitat for marbled murrelets is present in Area 1 only.

Survey Results

Surveys for northern spotted owls are not necessary for this sale.

Surveys for marbled murrelets were conducted in Area 1 in 2001 and 2002, using a protocol developed by the Pacific Seabird Group¹. Murrelets were not detected during these surveys. A survey waiver for marbled murrelets has been issued for this area and further surveys are not planned.

Known T&E Resources

There are no northern spotted owl activity centers within 1.5 miles or Marbled Murrelet Management Areas within 0.25 miles of this sale.

Operational Considerations

As per the survey waiver, wind firm trees with 5 inches or larger diameter limbs and trees leaning towards trees with limbs 5 inches or larger diameter in Area 1 will be reserved.

Future Survey Plans

ODF has no plans for further survey of this sale.
