Survey Results

This sale was surveyed for northern spotted owls in 2009 using a protocol endorsed by the U.S. Fish and Wildlife Service¹. Northern spotted owls were not observed during these surveys. An unknown *Strix* owl species was observed on one occasion during surveys in 2009. Additional visits to the area were conducted that did not result in observations of spotted owls.

Surveys for marbled murrelets are not necessary for this sale.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

¹ USDI Fish and Wildlife Service. 1991, revised 1992. Protocol for surveying proposed management activities that may impact northern spotted owls. 15pp.

Operational Considerations

Current northern spotted owl survey results are valid until March 15, 2012.

All timber should be felled by March 15, 2012.

Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
