Biological Survey Report

Project: Buena Vista

From: Matt Gostin

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls. This sale is located in the Marbled Murrelet Systematic Survey Zone. By ODF policy, operational marbled murrelet surveys are not required.

Survey Results

This sale was surveyed for northern spotted owls in 2010 and 2011, using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. Unknown *Strix* species owls were observed twice in 2011. Additional surveys were conducted to attempt to determine species of the *Strix* owl with no success. Northern spotted owls were not observed during these surveys. Surveys are ongoing in 2012.

Surveys for marbled murrelets are not necessary for this sale.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

² Oregon Department of Forestry, June 1, 2010. Policy bulletin SFB – 10-03, Northern Spotted Owl Policy Update - Northern Spotted Owl Survey Protocol.

Operational Considerations

No felling, except for felling associated with project work, shall be allowed prior to the completion of the 2012 northern spotted owl surveys indicating no resident spotted owls.

Current northern spotted owl survey results are valid until March 15, 2014. After the 2012 surveys are completed, the survey results will be valid until March 15, 2015.

All timber should be felled by March 15, 2015.

Future Survey Plans

ODF plans to conduct spotted owl surveys in 2012 to extend the duration of the sale contract. In addition, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
