ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as required by the USFWS survey protocol. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the West Oregon District at (541) 929-3266 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS:

NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT.

SEASONAL RESTRICTIONS APPLY - SEE SECTION 2455.

A KEY IS REQUIRED TO ACCESS AREA IV AND MAY BE CHECKED OUT AT THE

WEST OREGON DISTRICT HEADQUARTERS IN PHILOMATH.

All wood from this sale will be weight scaled and converted to MBF as stated in Section 1750.

Areas I, II, III, and IV have seasonal restrictions due to their proximity to Marbled Murrelet Management Areas (MMA).

All sale areas are automark thinning units.

Net and gross acreage for all timber sale areas was determined using digital orthophotos and GIS.

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

See inside front cover of Timber Sale Schedule handbook for disclaimer regarding all governmental regulatory actions.

"STEWARDSHIP IN
FORESTRY"

Biological Survey Report

Project: Green Spill
Date: July 31, 2012
To: Chris Humcke
CC: Mike Totey, District Sale File
From: Matt Gostin

Habitat Suitability

There is no potentially suitable habitat for marbled murrelets in any sale area. However, all sale areas are adjacent to potentially suitable habitat for marbled murrelets. There is no potentially suitable habitat for northern spotted owls in any sale areas.

Survey Results

Surveys for marbled murrelets were conducted using a protocol developed by the Pacific Seabird Group (PSG)¹. Surveys were conducted at four survey sites (labeled sites 2, 3, 4, and 7). Site 4 was surveyed from 2009 - 2011. There were presence observations of marbled murrelets in survey site 4 in 2009 and no observations in 2010. Surveys were continued in 2011 to keep them current for another timber sale. Site 4 had subcanopy observations indicating occupancy in 2011. This site was put into a Marbled Murrelet Management Area (MMA). Sites 2 and 7 were surveyed in 2009 only. During surveys in site 7, subcanopy observations indicating occupancy were observed both in this site as well as the adjacent site 2. Surveys were discontinued at these sites and portions of the surveys sites were incorporated into a

MMMA. Site 3 was surveyed in 2009 and 2010. There were no observations of marbled murrelets in site 3.

Surveys for northern spotted owls are not necessary for this sale.

Known T&E Resources

All sale areas, except area V, are adjacent to MMMA's. In addition, portions of sale areas II and III are within non-suitable habitat buffers within a MMMA. A Biological Assessment (BA) has been conducted. It concludes that harvest of this sale will result in a "low" risk to the MMMA's adjacent to the sale units.

Sale area 3 is within 1.5 miles of a northern spotted owl activity center. A Biological Assessment of the sale's impact on the activity center has been conducted. It concludes the Green Spill sale, as currently proposed, will result in a low risk to the spotted owl site.

Operational Considerations

No tailholds, guyline anchors, or line corridors may be utilized within a MMMA at any time.

Within 300 feet of MMMA's in Areas I – IV:

- (a) Felling Operations within seasonally restricted buffers (within 300 feet of a MMMA) shall not be allowed from April 1 through August 5, or from August 6 through September 15 between two hours before sunset and two hours after sunrise, unless otherwise approved in writing by STATE. Portions of Areas I, II, III, and IV are within 300 feet of a MMMA.
- (b) Cable Yarding Operations including the use of tailhold/guyline anchors in portions of Areas I, II, III, and IV within seasonally restricted buffers (within 300 feet of a MMMA) shall not be allowed from April 1 through August 5 or from August 6 through September 15 between two hours before sunset and two hours after sunrise, unless otherwise approved in writing by STATE. These Areas are adjacent to MMMA's.
- (c) Ground-based Operations in portions of Areas I, II, III, and IV within seasonally restricted buffers (within 300 feet of a MMMA) shall not be allowed from April 1 through August 5 or from August 6 through September 15 between two hours before sunset and two hours after sunrise, unless otherwise approved in writing by STATE. These Areas are adjacent to MMMA's.
- (d) Log Loading in portions of Areas I, II, III, and IV within seasonally restricted buffers (within 300 feet of a MMMA) shall not be allowed from

April 1 through August 5 or from August 6 through September 15 between two hours before sunset and two hours after sunrise, unless otherwise approved in writing by STATE. These Areas are adjacent to MMMA's

- (e) Operations in portions of Areas I, II, III, and IV within seasonally restricted buffers (within 300 feet of a MMMA) shall not be allowed from April 1 through August 5 or from August 6 through September 15 between two hours before sunset and two hours after sunrise, unless otherwise approved in writing by STATE. These Sale Areas are adjacent to MMMA's
- (f) Work on Project No. 1, road segment F2 to F3 (sta. 8+20 to 11+40), shall not be allowed from April 1 through August 5, or from August 6 through September 15 between two hours before sunset and two hours after sunrise, unless otherwise approved in writing by STATE. This road segment is within 300 feet of a MMMA.
- (g) Work on Project No. 2; road segments C to C1, D to D1, D2 to D3, D4 to D5, and F2 to F3; pass through or is within 300 feet of a MMMA. Work shall not be allowed from April 1 through August 5, or from August 6 through September 15 between two hours before sunset and two hours after sunrise, unless otherwise approved in writing by STATE. Portions of these areas are within 300 feet of a MMMA.

Marbled murrelet survey results are valid until April 1, 2016.

All timber should be felled by April 1, 2016.

Future Survey Plans

ODF has no plans for further survey of this sale. However, ODF has an active survey program and northern spotted owl surveys and activity center monitoring will be conducted within 3 miles of this sale during the life of the contract.
