EXHIBIT B

INSTRUCTION SHEET FOR OPERATIONS PLAN

SUBMIT ONE COPY OF PLAN TO STATE

Operations shall be limited to the work shown in the plan until a revised plan or supplemental plan is submitted covering additional work. Compliance with this plan is not in lieu of compliance with any federal requirements related to the federal Endangered Species Act. If STATE has prepared a required Forest Practices Act (FPA) "Written Plan" for operations, PURCHASER shall comply with all provisions of the Written Plan.

Explanation of Item No. (from Page 1)

- (5) All sales require you to use a brand furnished by STATE. If the State brand has not been assigned when the plan is submitted, it will be furnished and assigned later. Complete drawing. If more than one brand is assigned to the sale, complete both drawings.
- (6) The contract requires you to have a designated representative available on the sale area or work location who is authorized to receive in your behalf any notice or instruction given by STATE and to take action in regard to performance under the contract. If logging and project work is widely separated, a representative is required for each.
- (7) The STATE representative will be designated when your plan is approved and is the person who will inspect and issue instructions regarding performance.
- (8) Show names of subcontractors to be used for any or all phases of the operations. If subcontractors are not known, or are changed later, give notification to the STATE representative prior to commencement of work by subcontractor.

Show projected dates for commencement of both projects and logging. If projected dates need to be changed at a later date, notification must be given to the STATE representative by supplemental plan or otherwise, prior to commencement of such operations.

- (10) The STATE representative will furnish extra copies of Exhibit A of the contract for your use in preparing the operations map. The map shall use the following legend and show:
 1. Landing locations, approximate setting boundaries, and probable sequence of logging the settings. Number the settings in sequence.
 2. Locations of spur roads planned for construction, other than those required by the timber sale contract. Provide spur road specifications.
 3. Location of proposed tractor yarding roads. Show if and how marked on the ground.
 4. Location of temporary stream crossings.
 5. List the sequence of performing project work.
 6. Location of rock sources - attach pit development plans.

	Cable Landing, with numbers for sequence.
	Tractor Landing with alphabetical sequence.
	Approximate setting boundary.
	Spur truck roads.
	Tractor yarding roads.
	Temporary stream crossings.

EXHIBIT B
OPERATIONS PLAN

Completion Timeline

Indicate on the appropriate timeline below, the dates by which you plan to complete the work as required under this contract. The purpose of this section is to develop a plan that will ensure you complete the work as required, and meet the interim completion date(s) and contract expiration date. This plan is incorporated and made a part of the contract. When, in the opinion of STATE, operations are not commencing in a manner that meets the intent of this plan, you may be placed in violation of contract and your operations suspended until an amended plan is submitted and approved by STATE.

Projects

Harvest & Other Requirements

The Federal Endangered Species Act (ESA) prohibits a person from taking any federally listed threatened or endangered species. Taking under the federal ESA may include alteration of habitat. STATE's approval of this plan does not certify that PURCHASER's operation under the plan is lawful under the federal ESA. As provided in the timber sale contract, PURCHASERS must comply with all applicable state, federal, and local laws.

PURCHASER's compliance with this plan is not in lieu of compliance with any federal requirements related to the federal Endangered Species Act.

PART IV: OTHER INFORMATION

State Timber Sale Contract
No. 341-14-50
By the Way

Written Plan for By The Way Timber Sale: 341-14-50

Timber Harvest

LEGAL DESCRIPTION: The By the Way Timber Sale is located in Portions of Sections 19, 20, 30, T2N, R5W, W.M., and Portions of Section 25, T2N, R6W, W.M., Washington County, Oregon.

HARVEST AREAS: The proposed harvest will remove dead and diseased trees along the highway corridor to mitigate safety hazards to motorists and to encourage forest health. All danger trees in these Areas will be removed.

PROTECTED RESOURCE:

1. High Landslide Hazard Location (HLHL) areas adjacent to Highway 6. (OAR 629 division 623)
2. Scenic Highway; visually sensitive corridors adjacent to Highway 6. (ORS 527.755)

DESCRIPTION OF THE AREA: These areas have been identified by ODOT as having hazard trees that create motorist safety concerns. Some areas extend beyond 150' because they contain one or more of the following situations:

- a. Slope steepness and slope aspect could cause trees to slide or roll towards the highway or wayside turnouts and parking areas.
- b. Locations beyond 150' from the highway or waysides with forest health concerns because of disease and potential wind-throw.
- c. Locations beyond 150' not visible from the highway.

PROTECTION MEASURES:

1. Due to the safety hazard of ***leaving*** trees standing on these locations, two rules are applicable to these HLHL sites which allow them to be harvested:
 - 629-623-400 (1) Diseased or dying trees can be removed on "substantial" risk slopes if removing them does not increase public risk. This also applies to downed or tilting trees (if expected to die within two years). Obviously the public risk is not increased if they can be removed without damaging the remaining trees or causing some major ground disturbance (road building or gouging steep slopes).
 - 629-623-800 (2) If the risk to the public of trees blowing over is greater than the risk of failure of the HLHL slope, then healthy trees can be cut and removed. This rule has two ideas. The first is the risk of a tree actually falling on a home or a highway and the second is that if a tree falls and destabilizes an HLHL and causes a landslide.

Oregon Department of Forestry has consulted with the area Geotechnical Specialist and has received a memo addressing areas mentioned above and includes justification to harvest near these HLHLs. The memo refers to Areas 17, 26, 28, 29 which are now Areas 10, 16, 17, and 18 respectively under the By the Way Timber Sale Contract.
2. Harvesting in the scenic visual corridor will stay consistent with parameters in ORS 527.755 (3) (a) and will require a waiver to maintain motorist safety and protect forest health.
