Biological Survey Report

Project: Wage Against The Machine

Date: December 8, 2014

To: Ty Williams

CC: Dan Goody, District Sale File

From: Matt Gostin

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls in areas 1–4. This sale is located in the Marbled Murrelet Systematic Survey Zone. By ODF policy, operational marbled murrelet surveys are not required.

Survey Results

This sale was surveyed for northern spotted owls in 2013 and 2014 using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. An unknown *Strix* species owl was observed once in 2014. Northern spotted owls were not observed in either year of these surveys.

Surveys for marbled murrelets are not necessary for this sale.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

¹ USDI Fish and Wildlife Service. 2012. Protocol for surveying proposed management activities that may impact northern spotted owls. 42pp.

² Oregon Department of Forestry, June 1, 2010. Policy bulletin SFB – 10-03, Northern Spotted Owl Policy Update – Northern Spotted Owl Survey Protocol.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Current northern spotted owl survey results are valid until March 15, 2017.

All timber should be felled by March 15, 2017.

Future Survey Plans

Spotted owl spot check surveys for this timber sale will be required in 2015 and 2016. In addition, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
