**ENDANGERED SPECIES ACT  
COMPLIANCE STATEMENT:**

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Western Lane District at (541)-935-2283 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

### Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls and marbled murrelets.

### Survey Results

Surveys for marbled murrelets were conducted in 2012 and 2013, using a protocol developed by the Pacific Seabird Group<sup>1</sup>. Marbled murrelets were detected as present during four surveys in 2012 and one survey in 2013. However, behaviors indicating occupancy were not observed at any site. A subcanopy observation outside of the survey site in 2012 was reviewed by the U.S. Fish and Wildlife Service (USFWS) and found not to be indicative of occupancy. The station array was slightly different between 2012 and 2013. However, complete coverage of the sight was achieved during both years of survey effort.

This sale was surveyed for northern spotted owls in 2012 and 2013, using a protocol endorsed by the USFWS<sup>2,3</sup>. A northern spotted owl was observed on one occasion in

2013. A northern spotted owl was observed on one occasion in 2014 as part of surveys for future operations. The resident status of these observations will be determined at the end of the survey season.

### **Known T&E Resources**

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

### **Operational Considerations**

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Current northern spotted owl survey results are valid until March 15, 2016. Marbled murrelet survey results are valid until April 1, 2019.

All timber should be felled by March 15, 2016.

### **Future Survey Plans**

Spotted owl spot check surveys for this timber sale will be required in 2015 and 2016 if timber felling has not been completed. In addition, ODF has an active survey program and northern spotted owl surveys will be conducted within 3 miles of this sale during the life of the contract.
