ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Western Lane District at (541)-935-2283 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT.

"STEWARDSHIP IN
FORESTRY"

Biological Survey Report

Project: Green 10
Date: December 2, 2014
To: Ole Buch
CC: Link Smith, District Sale File
From: Matt Gostin

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls and marbled murrelets.

Survey Results

This sale was surveyed for northern spotted owls in 2013 and 2014, using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. Northern spotted owls were observed on one occasion in 2013 and on three occasions in 2014. These observations were attributed to a known activity center within 1.5 miles of the timber sale.

Surveys for marbled murrelets were conducted in 2010 and 2011, using a protocol developed by the Pacific Seabird Group³. Murrelets were not detected during these surveys.

Known T&E Resources

This sale is within 1.5 miles of a northern spotted owl activity center. A Biological Assessment of the sale's impact on the activity center has been conducted. It concludes that the Green 10 timber sale, as currently planned, poses low risk of negatively affecting the northern spotted owl site.

There are no Marbled Murrelet Management Areas affecting this sale.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Current northern spotted owl survey results are valid until March 15, 2017. Marbled murrelet survey results are valid until April 1, 2017.

All timber should be felled by March 15, 2017.

Future Survey Plans

Spotted owl spot check surveys for this timber sale will be required in 2015 and 2016. In addition, ODF has an active survey program and northern spotted owl surveys and activity center monitoring will be conducted within 3 miles of this sale during the life of the contract.
