Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Biological Survey Report

Project: Buck Ridge
Date: February 26, 2015
To: Chris Rudd
CC: Dan Thorpe, District Sale File
From: Matt Gostin

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls in areas 1 - 3.

Survey Results

This sale was surveyed for northern spotted owls in 2013 and 2014 using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. Northern spotted owls were observed on two occasions in 2013 and on two occasions in 2014. All observations were attributed to a known activity center greater than 1.3 miles of the timber sale.

Known T&E Resources

There are no northern spotted owl activity centers affecting this sale.

¹ USDI Fish and Wildlife Service. 2011. Protocol for surveying proposed management activities that may impact northern spotted owls. 38pp.

² Oregon Department of Forestry, June 1, 2010. Policy bulletin SFB – 10-03, Northern Spotted Owl Policy Update - Northern Spotted Owl Survey Protocol.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Current northern spotted owl survey results are valid until March 15, 2017.

All timber should be felled by March 15, 2017.

Future Survey Plans

Spotted owl spot check surveys for this timber sale will be required in 2015 and 2016. In addition, ODF has an active survey program and northern spotted owl surveys and activity center monitoring may be conducted within 3 miles of this sale during the life of the contract.
