ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no ESA violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Southwest Oregon District, Grants Pass Unit at 541-474-3152 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

Biological Survey Report

Project: Little Mac
Date: November 7, 2016
To: Chris Rudd
CC: Dave Larson, District Sale File
From:

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls.

Survey Results

This sale was surveyed for northern spotted owls in 2015 and 2016 using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. Northern spotted owls were not observed during these surveys.

Known T&E Resources

This sale is within 1.3 miles of three northern spotted owl activity centers. A Biological Assessment of the sale's impact on the activity centers has been conducted. It concludes that the Little Mac timber sale, as currently planned, poses low risk of negatively affecting these northern spotted owl sites.

¹ USDI Fish and Wildlife Service. 2011. Protocol for surveying proposed management activities that may impact northern spotted owls. 38pp.

² Oregon Department of Forestry, June 1, 2010. Policy bulletin SFB – 10-03, Northern Spotted Owl Policy Update - Northern Spotted Owl Survey Protocol.

Operational Considerations

If an additional year of northern spotted owl surveys is conducted in 2017, no felling, except for felling associated with project work, shall be allowed prior to completion of the 2017 northern spotted owl surveys indicating no new resident spotted owls.

If felling operations are not initiated by February 1, felling may not occur until April 15 of each year, or until northern spotted owl spot checks surveys are completed, whichever is first.

Current northern spotted owl survey results are valid until March 15, 2019.

Northern spotted owl survey results will be valid until March 15, 2020 upon the completion of 2017 surveys.

Future Survey Plans

Spotted owl spot check surveys for this timber sale will be required in 2017 and 2018 if operational surveys are not conducted in 2017. If operational surveys are conducted in 2017, spotted owl spot check surveys for this timber sale will be required in 2018 and 2019. In addition, ODF has an active northern spotted owl survey program and activity center monitoring may be conducted within 3 miles of this sale during the life of the contract.
