Section 1370. Choice of Law and Venue. This Contract shall be governed by, construed and enforced in accordance with, the laws of the State of Oregon, without regard to principles of conflicts of law. No waiver, consent, modification, or change of terms of this Contract shall bind either party, unless in writing and signed by both parties. Such waiver, consent, modification, or change, if made, shall be effective only for the specific purpose given. There are no understandings, agreements, or representations, oral or written, not specified herein regarding this Contract. PURCHASER, by the signature of its Authorized Representative in Section 1000, "Signatures of Contract Parties," hereby acknowledges that she/he has read this Contract, understands it, and agrees to be bound by its terms and conditions.

Payments due by the twenty-fifth (25th) shall be for logs delivered and scaled from the first (1st) through the fifteenth (15th) of the month. Payments due by the tenth (10th) shall be for logs delivered and scaled from the sixteenth (16th) through the last day of the preceding month. PURCHASER may give STATE its preferred payment schedule. STATE shall designate payment schedule.

When payments are made to STATE, PURCHASER shall also submit to STATE a summary statement showing payments made to STATE and payments made to STATE's Contractor, compared to log volume and value received by PURCHASER.

Section 1740. Log Prices and Log Sort Specifications. The following price schedule shall be designated as the "Purchase Price" and shall apply to all logs delivered to PURCHASER. Payment shall be for net log scale, unless noted. PURCHASER shall pay STATE and STATE's Contractor based upon net scale on itemized scaling certificate and load tickets for saw logs and based on weight certificates for pulp logs.

If Purchaser provides payment of any kind for mis-sorted species or utility grade logs, then Purchaser shall pay such amounts directly to the State. And if after payment to the State, if the amount should exceed that which is required to be provided in accordance with Section 1740 of the Log Sale Contract, "Log Prices and Log Sort Specifications," then Purchaser must provide remaining amounts owed to Contractor. Contingent Price Adjustment. As provided in Section 1020, "Sale of Logs," it is the policy of the State of Oregon, in accordance with the terms of current federal law and the Constitution and the laws of the State of Oregon, that unprocessed logs shall not be exported from lands owned or managed by the State or any of its political subdivisions or agencies. PURCHASER specifically agrees that Section 1020, "Sale of Logs," is a material term of this Contract and is part of the consideration offered to STATE in return for STATE's performance. In the event that any federal law or state constitutional provision or law or any provision of this Contract concerning export of unprocessed timber is declared invalid by any court or administrative tribunal, PURCHASER agrees to pay to

STATE, in addition to the Purchase Price, an incremental amount equal to the difference between the Purchase Price set forth in this section and any higher price obtained by PURCHASER for the exported unprocessed logs.

The default provisions of (*OAR 629-032-0000 through 629-032-0070) (*OAR 141-015-0005 through 141-015-0050) shall not apply to exported unprocessed logs. In the event that logs made available under this Contract are exported in violation of this Contract, PURCHASER shall be in material breach of the Contract. In such event, STATE shall be entitled to cease performance of the Contract, and shall recover, in addition to the Purchase Price and additional increment set out above, a further sum estimated by STATE to compensate for administrative expense and the economic impact of the violation upon the State and its citizens. In no case shall this additional amount be less than \$10,000 per incident.

Section 1750. Payment Adjustments.

If the purchaser desires they may scale log deliveries to check for missorts. Scaling shall be done by a Third Party Scaling Organization and upon request scaling data shall be made available to ODF by the Third Party Scaling Organization. State may approve a sample scale of up to 1 in 10 loads to determine missorts if the sampling procedure is shown to be unbiased.

Logs delivered by STATE's Contractor that do not meet the following log sort specifications as designated in Section 1740 "Log Prices and Log Sort Specifications".

- (1) Are over 1" out of tolerance of scaling diameter;
- (2) Do not meet the preferred log length specifications or multiples or combinations of preferred lengths as described in the supplemental information form; OR
- (3) Do not meet specified grade.

When the missort volume amounts to more than 5% of the total delivered sort volume, as determined by a third party scaling organization, the Purchaser shall notify State in writing prior to contract expiration and may, request a payment reduction.

For the delivery of mis-sorted logs, PURCHASER may request to STATE to reduce the payment. The amount of payment reduction shall be calculated using the following formula:

$$\text{Missort Payment Reduction} = (B \times V) \times (.5)$$

Where: B= Bid rate from Section 1740
V = Missort volume exceeding % threshold

Payment adjustment requests shall be made by PURCHASER in writing and submitted to the Astoria District Office of the Department of Forestry at 92219, Highway 202, Astoria, Oregon 97103.

No payment made shall be evidence of the satisfactory performance of the STATE's Contractor, either wholly or in part, against the claim of STATE to the contrary.

Section 1760. Payments and Interest. Payments to both the STATE and STATE's Contractors required of PURCHASER by this Contract or modifications of this Contract must be received by STATE within the time period stated in Section 1720, "Payment Method and Schedule".

Payments received after the due date stated on the billing terms of this Contract may be subject to an interest charge. The interest rate shall not be less than the established minimum state rate on delinquent accounts. The interest rate applied to overdue payments shall be in accordance with ORS 82.010. ORS 82.010 mandates the collection of interest at the annualized rate of nine (9) percent. Interest shall be calculated from the date of the original billing terms to the date payment is received by the State Forester.

PART II: SPECIFICATIONS

ACCOUNTABILITY

Section 2015. Log Accountability and Log Load Receipts - Sawlogs. PURCHASER shall require the scaler to record the Log Load Receipt number on the scale ticket that is signed by the scaler, attach the Scaler Receipt part to a copy of the scale ticket, and mail the scale ticket with the attached receipt to STATE on the date scaled.

PURCHASER shall not intermingle STATE logs delivered by this Contract with any other logs before log scaling occurs, unless otherwise approved by STATE.

Notice of Transfer of State Timber. Prior to selling, trading, exchanging, or otherwise conveying unprocessed logs sold under this Contract to any other person, PURCHASER must first obtain a certification of the buyer's eligibility to purchase unprocessed State timber and their intent to comply with the terms and conditions contained in OAR 629-031-0005 through 629-031-0045. The certification shall be made in a form and manner prescribed by STATE and shall be forwarded to STATE upon completion of the transaction.

Section 2016. Log Accountability and Log Load Receipts – Pulp Logs. PURCHASER shall require the weigher to sign the machine-printed weight receipt and record the Log Load Receipt number on the weight receipt. The weigher shall mark the delivery location identification on the Scaler Receipt part, attach the weight receipt to it and mail it to the designated Third-Party Scaling Organization (TPSO) weekly.

PURCHASER shall not intermingle STATE logs delivered by this Contract with any other logs before log weighing occurs, unless otherwise approved by STATE.

Notice of Transfer of State Timber. Prior to selling, trading, exchanging, or otherwise conveying unprocessed timber sold under this Contract to any other person, PURCHASER must first obtain a certification of the buyer's eligibility to purchase unprocessed State timber and their intent to comply with the terms and conditions contained in OAR 629-031-0005 through 629-031-0045. The certification shall be made in a form and manner prescribed by STATE and shall be forwarded to STATE upon completion of the transaction.

Section 2021. Log Measurement. Scale by weight is approved as the method used to measure the timber sold by this contract. A conversion factor of **7.5 tons per MBF for Douglas-fir; 8.0 tons per MBF for hemlock; and 8.0 tons per MBF for alder** shall be used for all species when determining the number of net board feet.

Weighing Locations and Rules: All logs from timber sold under this Contract shall be: (1) weighed at a location approved in writing by STATE; (2) processed by a third-party scaling organization that is a party to a current agreement with STATE. Prior to log hauling, PURCHASER shall submit a copy of current weight scale approval certificate(s) from Oregon Department of Agriculture for each approved location.

- (a) All loads shall be weighed prior to unloading any logs using STATE certified and sealed scales.
- (b) Every load shall be weighed for gross weight and tare weight. Average tare weights shall not be used. Unless approved in writing by STATE. The gross weight and truck tare weight for each load shall be machine printed on the weight ticket. The weight ticket shall include STATE Log Load Receipt number. The Log Load Receipt shall be stapled to the weight ticket and mailed to the TPSO of choice.
- (c) Log species shall be identified on both the weight scale receipt and weight ticket.

PURCHASER shall enter into a written agreement with a third-party scaling organization for the processing of logs removed from the Timber Sale Area (the "Scaling Agreement"). PURCHASER shall furnish STATE with a copy of the Scaling Agreement upon request.

If approved weighing stations become unavailable, log hauling shall be immediately suspended until an alternate accountability plan is submitted by PURCHASER and approved by STATE.

All weight certificates shall be processed by the third party weighing organization and converted into MBF using the conversion rates listed above. This volume and log load information shall be transmitted to STATE in a format compatible with STATE's electronic transfer system. Original weight certificates shall be sent to STATE after processing by an approved third party scaling organization.

Accountability Violations - Scaling Ramp Requirement. If PURCHASER violates any of the log accountability requirements of this Contract, STATE may require all logs from timber sold under this Contract to be scaled at a ramp provided by PURCHASER, in a location designated by STATE. All costs associated with this additional scaling requirement shall be paid by PURCHASER.

Cost of Weighing. All costs of weighing and all costs in connection with reports furnished to STATE shall be paid by PURCHASER.

Minimum Products Specifications and Special Scale Information are shown on Exhibit C.

The Scaling Agreement shall provide, and PURCHASER shall require, that the scaling organization furnish copies each week to STATE, of all weight certificates showing tare and net weights, by species and grade, of all logs weighed during the week. Upon request by STATE, PURCHASER shall also require the scaling organization to furnish and attach a weight detail list to each weekly scale certificate showing all STATE loads included on the certificate.

Weighing Instructions. The Scaling Agreement shall authorize STATE to provide instructions to the approved third-party scaling organization for the weighing practices to be used for timber removed from the Timber Sale Area. Instructions shall conform to the terms of this Contract, including special scales as necessary. PURCHASER shall acknowledge and sign such instructions and shall be provided a copy.

Measurement by Weight. STATE requires weighing of logs in lieu of log scaling to measure the timber sold by this Contract. A conversion factor of **7.5 tons per MBF for Douglas-fir; 8.0 tons per MBF for hemlock; and 8.0 tons per MBF for alder** for all logs shall be used for determining the number of net board feet. The scales shall be STATE certified and sealed. The gross weight and the truck tare weight for each load shall be machine printed on the weight receipt. (See Exhibit C for TPSO processing instructions.)

The Scaling Agreement shall include a provision, and PURCHASER shall require, that the third-party scaling organization that is a party to the Scaling Agreement furnish copies of all weight receipts to STATE, on a weekly basis, with summaries for all truck loads delivered during said week.

Section 2025. Log Measurement – Pulp Logs. All pulp logs shall be weighed at a location approved in writing by STATE. PURCHASER shall require the gross weight and the truck tare weight for each load to be machine printed on the weight receipt. PURCHASER shall also require the weigher to sign the weight receipt and record the Log Load Receipt number on the weight receipt. A conversion factor of ten (10) short tons per MBF shall be used for determining the number of board feet. PURCHASER shall furnish copies of all weight receipts to STATE on a weekly basis, with summaries for all truck loads delivered.

PURCHASER shall enter into an agreement with a third-party scaling organization for the processing of the weight receipts.

Unless other arrangements have been made through an agreement between PURCHASER and STATE, PURCHASER shall provide STATE with remote check scaling opportunities for logs weighed under this Contract. The last two (2) loads at each delivery point shall be continuously available for checking. They shall remain available for a minimum of forty-eight (48) hours unless replaced by other STATE loads. They shall be available as originally presented; i.e., if the load was weighed, they shall be presented in bunks.

Weighing Instructions. STATE will provide instructions to the PURCHASER for the practices to be used for Pulp logs delivered to PURCHASER. Instructions will conform to the terms of this Contract, PURCHASER shall acknowledge and sign such instructions and shall be provided a copy.

Minimum Products Specifications and Weight information are shown on Exhibit C to this Contract.

DELIVERY OPERATIONS

Section 2710. Log Delivery. STATE's Contractor will perform all hauling of logs to PURCHASER's designated delivery location. PURCHASER agrees to accept logs from the STATE's Contractor at the regular scheduled hours of the PURCHASER's receiving area, or at least between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday. No hauling or delivery of logs shall be allowed on weekends or State-observed legal holidays, unless otherwise approved in writing by STATE.

The PURCHASER may schedule times in which delivery of logs will not be accepted. The PURCHASER shall notify the STATE's Contract Administrator at least five (5) business days before the scheduled interruption or closure occurs. Major catastrophes are the only recognized valid reasons for not giving notice. The duration of the log delivery interruption shall not exceed seven (7) consecutive business days, or seven (7) total business days during the term of this Contract. STATE shall receive one (1) day extension for each day PURCHASER refuses log delivery. If PURCHASER's scheduled delivery interruption exceeds contract requirements, Purchaser will be in breach of Contract and subject to liquidated damages at a rate of \$1,000.00 per each day of breach, unless PURCHASER and the STATE have made a prior agreement in writing.
