ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state

Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS:

NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT. SEASONAL RESTRICTIONS APPLY - SECTION 2455.

Right of Way falling is allowed before September 1, 2019. Falling operations for logging are not permitted before September 1, 2019.
Pulp removal is required.

Sale acreage was determined using GIS.

Section 2015, "Log Accountability"; 2020 "Log Measurement"; 2030 "Log Branding and Painting"; and Exhibit C contain special language for pulp removal.

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls. This sale also contains potentially suitable habitat for marbled murrelets

Survey Results

This sale was surveyed for northern spotted owls in 2017 and 2018. Surveys have been conducted using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. There were no observations of northern spotted owls in 2018, but there was one observation of an unknown sex northern spotted owl in 2017. Surveys will continue in 2019.

Surveys for marbled murrelets were conducted in 2016 and 2017, using a protocol developed by the Pacific Seabird Group³. Marbled murrelets were not detected during these surveys.

Known T&E Resources

There are no northern spotted owl activity centers affecting this sale.

There are no Marbled Murrelet Management Areas affecting this sale.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

No felling, except for felling associated with project work, shall be allowed prior to the completion of the 2019 northern spotted owl surveys indicating no resident spotted owls.

Northern spotted owl survey results will be valid until March 15, 2022 upon the completion of 2019 surveys.

Marbled murrelet surveys are valid until April 1, 2023.

All timber should be felled by March 15, 2022 following the completion of the 2019 survey season.

Future Survey Plans

Spotted owl operational surveys will be conducted in 2019. Spotted owl spot check surveys for this timber sale will be required in 2020 and 2021. In addition, ODF has an active survey program and northern spotted owl surveys may be conducted within 3 miles of this sale during the life of the contract.
