ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls in area1. This sale contains potentially suitable habitat for marbled murrelets in areas 1 & 2.

Survey Results

Area 1 of this sale was surveyed for northern spotted owls in 2018 and 2019. Surveys were conducted using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. There were no observations of northern spotted owls in either year of survey.

Surveys for marbled murrelets were conducted in 2017 and 2018, using a protocol developed by the Pacific Seabird Group³. Marbled murrelets were detected as present at TSF199-2 during six surveys in 2017. However, behavior indicating occupancy were not observed. There were no observations of marbled murrelets at all other survey sites.

Known T&E Resources

There are no northern spotted owl activity centers affecting this sale.

There are no Marbled Murrelet Management Areas affecting this sale.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Northern spotted owl survey results will be valid until March 15, 2022.

Marbled murrelet surveys are valid until April 1, 2024.

All timber should be felled by March 15, 2022.

Future Survey Plans

Spotted owl spot check surveys for this timber sale will be required in 2020 and 2021. In addition, ODF has an active survey program and northern spotted owl surveys may be conducted within 3 miles of this sale during the life of the contract.
