ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state

Endangered Species Act () requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Astoria ODF District at (503) 325-5451 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS:

NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT. SEASONAL RESTRICTIONS APPLY - SECTION 2455.

Weight Sample Scaling is an option on this timber sale. (Section 2020).

Keys are available at the Astoria District office for Hamlet Stockpile Road.

Approximately 9 acres of Unit 6 is operationally restricted and has an early felling deadline of April 1, 2021. (Section 2310).

A Clatsop County Road Right-of-Way Permit is required for operations within 100 feet of Hamlet and Hill Roads.

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

"STEWARDSHIP IN
FORESTRY"

Biological Survey Report

Project: Hamlet 8
Date: July 24, 2020

From:

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls in units 1, 4, 5, 6, & 7. Sale units 1, 3, 4, 5, 6, & 7 are adjacent to potentially suitable habitat for marbled murrelets.

Survey Results

Sale units 1, 4, 5, 6, & 7 were covered by spotted owl density surveys in 2018^{1,2,3} and 2019. 2020 density surveys will be completed on or before the end of August. Northern spotted owls have not been observed during these surveys to date. Density surveys will be ongoing during the life of the sale contract.

This sale was surveyed for marbled murrelets in multiple years. These surveys were conducted using a protocol developed by the Pacific Seabird Group⁴. Sale unit 6 was covered by surveys in 2014 and 2015. Marbled murrelets were detected as present during one survey in 2014. However, behaviors indicating occupancy were not

observed. Sale units 1, 3, 4, 5, & 7 were covered by surveys in 2018 and 2019. Marbled murrelets were not detected during these surveys.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Northern spotted owl survey results will not expire unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 15, three years following the last full season of surveys.

All timber covered by marbled murrelet surveys in 2014 and 2015 should be felled by April 1, 2021.

All timber covered by marbled murrelet surveys in 2018 and 2019 should be felled by April 1, 2025.

Future Survey Plans

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active northern spotted owl survey program and surveys for other planned operations and density surveys will be conducted within 3 miles of this sale during the life of the contract.
