Habitat Suitability

This sale has potentially suitable habitat for northern spotted owls in all sale units. There is potentially suitable habitat for marbled murrelets within or adjacent to all sale units.

Survey Results

This sale has been covered by ongoing spotted owl density surveys beginning in 2018^{1, 2, 3}. Northern spotted owls have not been observed within 1.5 miles of this sale during these surveys. An unknown *Strix* owl was observed within 1.5 miles on one occasion in 2022. Density surveys will be ongoing during the life of the sale contract.

This sale was surveyed for marbled murrelets in 2020/2021 and 2018/2019. These surveys were conducted using a protocol developed by the Pacific Seabird Group⁴. No marbled murrelets were detected during these surveys.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas (MMMA) affecting this sale.

Operational Considerations

This sale is in a density survey coverage area. Northern spotted owl felling deadlines for survey expirations will not be in effect unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 15, three years following the last full season of surveys.

Marbled murrelet surveys will be valid until April 1, 2025 for all early felling areas in Unit 1.

Marbled murrelet surveys will be valid until April 1, 2028 for the remaining portion of Unit 1, Unit 2 and Unit 3.

All timber should be felled by April 1, 2025 for all early felling areas in Unit 1.

All timber should be felled by April 1, 2028 for the remaining portion of Unit 1, Unit 2 and Unit 3.

Future Survey Plans

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active survey program and surveys for other planned operations and northern spotted owl density surveys will be conducted within 3 miles of this sale during the life of the contract.
