ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: Purchasers are required to comply with all federal and state laws, including but not limited to the federal and State Endangered Species Act.

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. Surveying efforts may take place in the Timber Sale Area anytime during the term of the Contract. Purchaser acknowledges that T&E survey work or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect PURCHASER's Operations under the Contract, and PURCHASER agrees to cooperate with STATE's survey work and other activities designed to identify and protect T&E species. In the event any T&E species is found within or in the vicinity of the Area(s) of Operations, or the State otherwise deems it necessary or expedient to take action in response to any pending or threatened legal action concerning State forest land or any T&E species, PURCHASER agrees that STATE may take steps to protect the interests of the State, including imposing restrictions on PURCHASER's Operations under the Contract to prevent disturbance to T&E species, including Contract modification, suspension, or termination.

PURCHASER also acknowledges that at some point during the Contract term, the STATE may also become subject to terms and conditions of Incidental Take Permits issued by the federal government covering State forest lands. PURCHASER agrees that any Operations that occur following issuance of an Incidental Take Permit, if any, must be carried out consistent with such terms and conditions that include required minimization and mitigation measures proposed in the applicable Habitat Conservation Plan, and PURCHASER further agrees that STATE may take steps to protect the interest of the State, including imposing restrictions on PURCHASER's Operations under the Contract to ensure such compliance, including Contract modification, suspension, or termination.

Prospective purchasers are encouraged to contact the Astoria ODF District at (503) 325-5451 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

**SPECIAL REMARKS:**

**NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT. SEASONAL RESTRICTIONS APPLY - SECTION 2455.**

Midpoint Payment: 12/09/2026

Felling shall be complete in the "early felling" area of Unit 1 prior to April 1, 2027 (Section 2455).

Any pulp log that is yarded to the Landing shall be removed as Designated Timber (Section 2045).

In cable settings, to reduce breakage during yarding, the butt log of every conifer tree greater than 25 inches in diameter (DBH) shall be bucked prior to yarding, unless otherwise approved by STATE (Section 2310).

During significant rainstorm events or if the road is showing signs of road failure, hauling will not be permitted. Significant rainstorm events are generally defined as periods when rainfall exceeds 1 1/2" in a 24-hour period or 2" in a 48-hr period, as measured at the nearest weather station as specified by STATE (Section 2130).

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

**See inside front cover of Timber Sale Schedule handbook for disclaimer regarding all government regulatory actions.**

### Habitat Suitability

This sale has potentially suitable habitat for northern spotted owls in Units 1 and 2. There is potentially suitable habitat for marbled murrelets in and adjacent to Units 1 and 2.

### Survey Results

This sale has been covered by northern spotted owl density surveys in 2023 and 2024<sup>1,2,3</sup>. Northern spotted owls have not been observed within 1.5 miles of this sale during these surveys.

This sale was surveyed for marbled murrelets over multiple years in 2020/2021 and 2022/2023. These surveys were conducted using a protocol developed by the Pacific Seabird Group<sup>4</sup>. Marbled murrelets were not detected during these surveys.

## **Known T&E Resources**

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas (MMMA) affecting this sale.

## **Operational Considerations**

This sale is in a density survey coverage area. Northern spotted owl felling deadlines for survey expirations will not be in effect unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 1, three years following the last full season of surveys.

Marbled murrelet surveys will be valid until April 1, 2027, for Unit 1.  
Marbled murrelet surveys will be valid until April 1, 2029, for Unit 2.

All timber in Unit 1 should be felled by April 1, 2027.  
All timber in Unit 2 should be felled by April 1, 2029.

## **Future Survey Plans**

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active survey program and surveys for other planned operations and northern spotted owl density surveys will be conducted within 3 miles of this sale during the life of the contract.
