ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: Purchasers are required to comply with all federal and state laws, including but not limited to the federal and State Endangered Species Act.

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. Surveying efforts may take place in the Timber Sale Area anytime during the term of the Contract. Purchaser acknowledges that T&E survey work or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect PURCHASER's Operations under the Contract, and PURCHASER agrees to cooperate with STATE's survey work and other activities designed to identify and protect T&E species. In the event any T&E species is found within or in the vicinity of the Area(s) of Operations, or the State otherwise deems it necessary or expedient to take action in response to any pending or threatened legal action concerning State forest land or any T&E species, PURCHASER agrees that STATE may take steps to protect the interests of the State, including imposing restrictions on PURCHASER's Operations under the Contract to prevent disturbance to T&E species, including Contract modification, suspension, or termination.

PURCHASER also acknowledges that at some point during the Contract term, the STATE may also become subject to terms and conditions of Incidental Take Permits issued by the federal government covering State forest lands. PURCHASER agrees that any Operations that occur following issuance of an Incidental Take Permit, if any, must be carried out consistent with such terms and conditions that include required minimization and mitigation measures proposed in the applicable Habitat Conservation Plan, and PURCHASER further agrees that STATE may take steps to protect the interest of the State, including imposing restrictions on PURCHASER's Operations under the Contract to ensure such compliance, including Contract modification, suspension, or termination.

Prospective purchasers are encouraged to contact the Astoria ODF District at (503) 325-5451 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS: **NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT. SEASONAL RESTRICTIONS APPLY - SECTION 2455.**

All Pulp that is yarded to the landing shall be hauled. (2045)

Units 1 and 2 were damaged from wind events during the 2022/2023 winter storms. Units 3 and 4 were damaged from a wildfire in late summer of 2022.

Operating chainsaws in Unit 1 and a portion of Unit 4 shall not be allowed from April 1 through August 5 within the Operationally Restricted Area shown on

Exhibit A. Furthermore, daily timing restrictions shall be in effect from August 6 through September 15 within the Operationally Restricted Area. During the period of daily timing restrictions, chainsaw use may be allowed from no earlier than two hours after sunrise until no later than two hours before sunset (Section 2455).

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

Habitat Suitability

This sale contains suitable habitat for northern spotted owls. There is potentially suitable habitat for marbled murrelets adjacent to Units 1 and 4.

Survey Results

This sale has been covered by ongoing spotted owl density surveys in 2022 and 2023^{1, 2, 3}. Northern spotted owls have not been observed within 1.5 miles of this sale during these surveys to date. Density surveys will be ongoing during the life of the sale contract.

There is potentially suitable habitat for marbled murrelets adjacent to Units 1 and 4. Survey Waivers have been issued following a field review and consultation with a representative from ODFW. With the protection and avoidance measures listed in the Survey Waivers, it has been determined that the proposed project does not

¹ Oregon Department of Forestry, November 1, 2017. 1.2, Northern Spotted Owl Policy

² USDI Fish and Wildlife Service. 2012. Protocol for surveying proposed management activities that may impact northern spotted owls. 42pp.

³ Forsman, E. D. 1995. Spotted Owl Monitoring Protocols for Demographic Studies. U.S. Department of Agriculture. Pacific Northwest Research Station. Corvallis, OR. 11 pp

have the potential to take murrelets given the proximity of the operation to platform bearing trees.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Northern spotted owl survey results will not expire unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 15, three years following the last full season of surveys.

No timber should be felled before August 6, 2023.

All timber should be felled by April 1, 2024.

As per the stipulations contained within the Survey Waivers for this sale, the following protection and avoidance measures will be in effect for Units 1 and 4:

- No trees with potential nest platforms or immediately surrounding trees that provide cover to potential nest platforms will be removed.
- No known nest trees will be removed.
- Use of chainsaws within un-surveyed areas is not permitted April 1– August 5.
- Chainsaws may be used August 6 – September 15 from two hours after sunrise until two hours before sunset.
- Chainsaw use is unrestricted September 16 – March 31.

Future Survey Plans

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active northern spotted owl survey program and surveys for other planned operations and density surveys will be conducted within 3 miles of this sale during the life of the contract.
