### Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls. This sale does not contain suitable habitat for marbled murrelets.

### Survey Results

This sale has been covered by ongoing density surveys beginning in 2018<sup>1,2,3</sup>. Northern spotted owls have not been observed within 1.5 miles of the sale area during these surveys.

### Known T&E Resources

There are no northern spotted owl activity centers affecting this sale.

Surveys for marbled murrelets are not required for this sale.

## **Operational Considerations**

This sale is in a density survey coverage area. Northern spotted owl felling deadlines for survey expirations will not be in effect unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 15, three years following the last full season of surveys.

## **Future Survey Plans**

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active northern spotted owl survey program and surveys for other planned operations and density surveys will be, and activity center monitoring may be, conducted within 3 miles of this sale during the life of the contract.
