ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: Purchasers are required to comply with all federal and state laws, including but not limited to the federal and State Endangered Species Act.

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. Surveying efforts may take place in the Timber Sale Area anytime during the term of the Contract. Purchaser acknowledges that T&E survey work or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect PURCHASER's Operations under the Contract, and PURCHASER agrees to cooperate with STATE's survey work and other activities designed to identify and protect T&E species. In the event any T&E species is found within or in the vicinity of the Area(s) of Operations, or the State otherwise deems it necessary or expedient to take action in response to any pending or threatened legal action concerning State forest land or any T&E species, PURCHASER agrees that STATE may take steps to protect the interests of the State, including imposing restrictions on PURCHASER's Operations under the Contract to prevent disturbance to T&E species, including Contract modification, suspension, or termination.

PURCHASER also acknowledges that at some point during the Contract term, the STATE may also become subject to terms and conditions of Incidental Take Permits issued by the federal government covering State forest lands. PURCHASER agrees that any Operations that occur following issuance of an Incidental Take Permit, if any, must be carried out consistent with such terms and conditions that include required minimization and mitigation measures proposed in the applicable Habitat Conservation Plan, and PURCHASER further agrees that STATE may take steps to protect the interest of the State, including imposing restrictions on PURCHASER's Operations under the Contract to ensure such compliance, including Contract modification, suspension, or termination.

Prospective purchasers are encouraged to contact the Forest Grove ODF District at (503) 357-2191 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS:

**NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT.
SEASONAL RESTRICTIONS APPLY - SECTION 2455.**

Pulp removal is optional.

Applications and Permits are required for any work, traffic control or signs within ODOT right of way, and can be obtained through Oregon Department of Transportation (ODOT, 503-325-7222).

PURCHASER shall coordinate with ODOT prior to operations in Unit 2 adjacent to Highway 6 and shall use flaggers to control traffic during felling and Yarding operations within 200 feet of the Highway. (Section 2310).

See operational and timing needs related to felling operations, (Section 2310).

Unit 2 dirt road access, felling, harvest removal, Slash removal, and dirt road vacate/block to be completed between April 1 and September 30.

In-Unit piles greater than 9 feet by 9 feet by 9 feet also require plastic inserted (Exhibit K).

Equipment washing is required (Section 2416).

25 Acres Slash Disposal required (Section 2560).

Elevation range from 1,200 to 1,700 feet.

Slopes range from 5% to 80%.

Acres were determined using ESRI ArcGIS Pro Software.

The portion of Unit 2 within 150 feet of Highway 6 is in a visually sensitive corridor and shall be cleared of major harvest debris within 30 days of the completion of the harvest or within 60 days of cessation of harvest activity on the site, regardless of whether the harvest operation is complete (ORS 527.755 (5)). See attached Written Plan for Operations within 300 feet of a scenic highway.

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

Habitat Suitability

There is potentially suitable habitat for northern spotted owls and marbled murrelets within this sale.

Survey Results

This sale has been covered by northern spotted owl density surveys in 2023 and 2024^{1, 2, 3}. These density surveys are ongoing and are planned to be conducted during the life of this contract. Northern spotted owls have not been observed within 1.5 miles of this sale during these surveys.

This sale was surveyed for marbled murrelets in 2023 and 2024. These surveys were conducted using a protocol developed by the Pacific Seabird Group⁴. No marbled murrelets were detected during these surveys.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

Operational Considerations

This sale is in a density survey coverage area. Northern spotted owl felling deadlines for survey expirations will not be in effect unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 15, three years following the last full season of surveys.

Marbled murrelet surveys are valid until April 1, 2030.

All timber should be felled by April 1, 2030.

Future Survey Plans

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active survey program and surveys for other planned operations, northern spotted owl density surveys, and activity center monitoring will be conducted within 3 miles of this sale during the life of the contract.
