ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Klamath-Lake ODF District at (541) 883-5681 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

ODF will modify timber sale contracts to allow purchasers who harvest after HCP permit issuance (expected in 2022) to harvest either (1) under requirements pre HCP to avoid take of listed species or (2) under the new requirements of the HCP, as applicable to each timber sale. If a purchaser chooses to harvest consistent with the requirements of the HCP, it will be the responsibility of the purchaser to comply with the HCP and permits, with assistance from and approval by ODF.

### Habitat Suitability

The Gilchrist State Forest is beyond the known range of the northern spotted owl.

### Known T&E Resources

There are no known T&E resource sites or FPA sites on the Gilchrist State Forest.

### Operational Considerations

There are no seasonal operating restrictions for threatened or endangered species resource sites.

### Future Survey Plans

ODF has no plans to conduct NSO surveys in the Gilchrist State Forest at this time. Northern Goshawk surveys may be conducted based on staff survey resources and habitat availability.
