ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

ODF will modify timber sale contracts to allow purchasers who harvest after HCP permit issuance (expected in 2022) to harvest either (1) under requirements pre HCP to avoid take of listed species or (2) under the new requirements of the HCP, as applicable to each timber sale. If a purchaser chooses to harvest consistent with the requirements of the HCP, it will be the responsibility of the purchaser to comply with the HCP and permits, with assistance from and approval by ODF.

SPECIAL REMARKS: **NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT.**

**SEASONAL RESTRICTIONS APPLY - SECTION 2455.**

### Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls. This sale does not contain potentially suitable habitat for marbled murrelets.

### Survey Results

All sale units have been covered by ongoing northern spotted owl density surveys in 2020 and 2021. Northern spotted owls have not been observed during these surveys to date. An unknown *Strix* owl was detected on one occasion in 2020. Density surveys will be ongoing during the life of the sale contract.

Marbled murrelet surveys are not required for this sale.

### Known T&E Resources

There are no Marbled Murrelet Management Areas or spotted owl activity centers affecting this sale.

### Operational Considerations

Northern spotted owl survey results will not expire unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 15, three years following the last full season of surveys.

## **Future Survey Plans**

All sale units have been covered by northern spotted owl density surveys. Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required. If density surveys are not conducted, then spot checks will be required.

ODF has an active survey program and surveys for other planned operations, northern spotted owl density surveys and activity center monitoring will be conducted within 3 miles of this sale during the life of the contract.
