ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: Purchasers are required to comply with all federal and state laws, including but not limited to the federal and State Endangered Species Act.

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. Surveying efforts may take place in the Timber Sale Area anytime during the term of the Contract. Purchaser acknowledges that T&E survey work or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect PURCHASER's Operations under the Contract, and PURCHASER agrees to cooperate with STATE's survey work and other activities designed to identify and protect T&E species. In the event any T&E species is found within or in the vicinity of the Area(s) of Operations, or the State otherwise deems it necessary or expedient to take action in response to any pending or threatened legal action concerning State forest land or any T&E species, PURCHASER agrees that STATE may take steps to protect the interests of the State, including imposing restrictions on PURCHASER's Operations under the Contract to prevent disturbance to T&E species, including Contract modification, suspension, or termination.

PURCHASER also acknowledges that at some point during the Contract term, the STATE may also become subject to terms and conditions of Incidental Take Permits issued by the federal government covering State forest lands. PURCHASER agrees that any Operations that occur following issuance of an Incidental Take Permit, if any, must be carried out consistent with such terms and conditions that include required minimization and mitigation measures proposed in the applicable Habitat Conservation Plan, and PURCHASER further agrees that STATE may take steps to protect the interest of the State, including imposing restrictions on PURCHASER's Operations under the Contract to ensure such compliance, including Contract modification, suspension, or termination.

Prospective purchasers are encouraged to contact the Tillamook ODF District at (503) 842-2545 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS:

NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT. SEASONAL RESTRICTIONS APPLY - SECTION 2455.

If pulp is yarded to the landing, removal is required (Section 2045).

Water diverters on Hoskins Road need to be replaced after logging (Exhibit K).

Midpoint payment of 50.00 percent is due on 01/22/2027.

Sale acreage was determined using GPS and GIS.

Unit 2 – No felling prior to August 6, 2025 (Section 2310).

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls in all sale units. This sale contains potentially suitable habitat for marbled murrelets within or adjacent to Units 1, 2, 3 and 4.

Survey Results

This sale was covered by northern spotted owl density surveys in 2023 and 2024^{1,2,3}. Northern spotted owls have not been observed during these surveys. Density surveys will be ongoing during the life of the sale contract.

Units 1, 3 and 4 were surveyed for marbled murrelets in 2023 and 2024. Unit 2 was surveyed for marbled murrelets in 2024 with surveys continuing in 2025. These surveys were conducted using a protocol developed by the Pacific Seabird Group⁴. Marbled murrelets have not been detected during these surveys to date.

Known T&E Resources

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas (MMMA) affecting this sale.

Operational Considerations

Due to the presence of barred owls, felling restrictions for spotted owl spot check surveys are not required for this sale at this time.

Northern spotted owl survey results will not expire unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 1, three years following the last full season of surveys.

Marbled Murrelet survey results will be valid until April 1, 2030 for Units 1, 3 and 4. Marbled murrelet survey results will be valid until April 1, 2031 for Unit 2 upon completion of surveys in 2025.

No timber should be felled prior to August 6, 2025, or before completion of 2025 surveys for Unit 2, whichever occurs first.

All timber should be felled by April 1, 2030 for Unit 1, 3 and 4.

All timber should be felled by April 1, 2031 for Unit 2.

Future Survey Plans

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active survey program and surveys for other planned operations, northern spotted owl density surveys and activity center monitoring will be conducted within 3 miles of this sale during the life of the contract.
