ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: Purchasers are required to comply with all federal and state laws, including but not limited to the federal and State Endangered Species Act.

The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. Surveying efforts may take place in the Timber Sale Area anytime during the term of the Contract.

Purchaser acknowledges that T&E survey work or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect PURCHASER's Operations under the Contract, and PURCHASER agrees to cooperate with STATE's survey work and other activities designed to identify and protect T&E species. In the event any T&E species is found within or in the vicinity of the Area(s) of Operations, or the State otherwise deems it necessary or expedient to take action in response to any pending or threatened legal action concerning State forest land or any T&E species, PURCHASER agrees that STATE may take steps to protect the interests of the State, including imposing restrictions on PURCHASER's Operations under the Contract to prevent disturbance to T&E species, including Contract modification, suspension, or termination.

PURCHASER also acknowledges that at some point during the Contract term, the STATE may also become subject to terms and conditions of Incidental Take Permits issued by the federal government covering State forest lands. PURCHASER agrees that any Operations that occur following issuance of an Incidental Take Permit, if any, must be carried out consistent with such terms and conditions that include required minimization and mitigation measures proposed in the applicable Habitat Conservation Plan, and PURCHASER further agrees that STATE may take steps to protect the interest of the State, including imposing restrictions on PURCHASER's Operations under the Contract to ensure such compliance, including Contract modification, suspension, or termination.

Prospective purchasers are encouraged to contact the Western Lane ODF District at (541) 935-2283 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls. This sale does not contain potentially suitable habitat for marbled murrelets.

Survey Results

This sale was covered by northern spotted owl operational surveys in 2022 and 2023, using a protocol endorsed by the U.S. Fish and Wildlife Service^{1,2}. Northern spotted owls were observed within 1.5 miles of this sale on two occasions during these surveys and attributed to a known activity center.

Surveys for marbled murrelets are not required for this sale.

Known T&E Resources

A portion of Unit 2 is within 1.5 miles of a northern spotted owl activity center. Since this portion falls within a non-baseline thiesse as identified in the Safe Harbor Agreement (SHA) with the U.S. Fish & Wildlife Service (USFWS), a Biological Assessment of the sale's potential impact is not required by ODF policy.

¹ USDI Fish and Wildlife Service. 2012. Protocol for surveying proposed management activities that may impact northern spotted owls. 42pp.

² Oregon Department of Forestry, November 1, 2017. 1.2, Northern Spotted Owl Policy

There are no Marbled Murrelet Management Areas (MMMA) affecting this sale.

Operational Considerations

Due to northern spotted owl detections at a resident-status AC within the survey area, felling restrictions for spotted owl spot check surveys may be required for this sale. If felling does not occur before February 1, 2024, felling restrictions will be in place until northern spotted owl spot check surveys have concluded on or close to April 15, 2024. If felling does not occur before February 1, 2025, felling restrictions will be in place until northern spotted owl spot check surveys have concluded on or close to April 15, 2025.

Northern spotted owl surveys will be valid until March 15, 2026.

All timber should be felled by March 15, 2026.

Future Survey Plans

ODF has entered into an agreement with the USFWS known as a SHA. This agreement allows the U.S. Geological Survey (USGS) to conduct a study on ODF managed lands which includes population reduction measures on barred owls to assess the impacts on northern spotted owls. This Contract contains sale areas within the USGS study boundary. Under this agreement, if nesting northern spotted owls are found in or within close proximity of the timber sale, the nest and surrounding area would be protected until fledglings leave the nest utilizing seasonal restrictions and other measures. In addition, ODF may take other actions including retaining and protecting trees in the immediate area of a nest tree.

ODF has an active survey program. Surveys for other planned operations, northern spotted owl operational surveys, spot check surveys and activity center monitoring may be conducted within 3 miles of this sale during the life of the contract.
