ENDANGERED SPECIES ACT COMPLIANCE STATEMENT: The Oregon Department of Forestry (ODF) is engaged in an active threatened and endangered (T&E) species survey program. Surveys, determinations, and management measures are developed and implemented in good faith compliance with federal and state Endangered Species Act (ESA) requirements. Restrictions on operations due to T&E species considerations are included in the prospectus. Purchasers are required to comply with all federal and state laws, including the Endangered Species Act. Purchaser should take steps to be certain that no violations occur. Prospective purchasers of timber sales are reminded that ODF surveying efforts may take place any time during the term of a timber sale contract. In some cases, ODF may require that initiation of operations be delayed to allow for completion of spot check surveys, as recommended by the USFWS survey protocol and required by ODF policy. As part of the survey program, ODF surveys its lands on a continuing basis for land management, species protection, research, and other reasons. During the contract term, T&E survey work and/or the discovery of a threatened or endangered species within or in the vicinity of a timber sale may affect operations contemplated under the contract. Also, legal challenges and other litigation regarding ODF threatened and endangered species related processes may occur and may affect operations contemplated under the contract. In the event a threatened or endangered species is found within or near this sale, or efforts are required to respond to legal issues, ODF may take steps necessary to protect the interests of the State, including contract alteration, suspension, or termination.

Prospective purchasers are encouraged to contact the West Oregon ODF District at (541) 929-3266 for further information or questions relative to threatened or endangered species surveys, future planned survey information, or other threatened or endangered species information.

SPECIAL REMARKS: **NO PERSONAL OR COMPANY CHECKS ACCEPTED FOR THE BID DEPOSIT. SEASONAL RESTRICTIONS APPLY - SECTION 2455.**

Acreage was determined using a combination of GPS and GIS utilizing orthographic imagery and Lidar data.

PURCHASER'S contractor shall obtain a "Permit to Perform Work on County Right of Way" from Benton County Public Works to operate machinery and/or load log trucks on Shingle Creek County Road (Section 2120).

Flaggers are required while felling within a tree length and a half of Shingle Creek County Road (Section 2310).

Firewood sorting is required along surfaced roads and Landings (Section 2365).

PURCHASER shall ensure protection measures are taken to preserve overhead power and buried Fiber optic lines along Shingle Creek County Road (Section 2420).

PURCHASER shall ensure all ground-based yarding, earth disturbing, road construction, and road maintenance equipment moved onto State Forest land and between State Forest land sites are free of soil, seeds, vegetation matter, or other debris that could contain, or hold, seeds (Section 2416).

Pulp removal is required if yarded to Landing (Section 2045).

Approximately 40 acres of machine slash piling is required (Section 2560).

Hardwoods other than alder may be removed as Pulp.

A key is required to access road segment Pt.4 to Pt.5. A key can be checked out at the Philomath office.

The information shown on the Exhibit A map(s) are approximate locations. Exact locations of features represented by map symbols shall be determined on site and shall depend upon the conditions that exist on site. Activities shall be conducted based upon features determined on site rather than features shown on maps.

### Habitat Suitability

This sale contains potentially suitable habitat for northern spotted owls. There is potentially suitable habitat for marbled murrelets within and adjacent to this sale.

### Survey Results

This sale was covered by ongoing northern spotted owl density surveys starting in 2019<sup>1,2,3</sup>. Northern spotted owls have not been observed during these surveys. Density surveys will be ongoing during the life of the sale contract.

This sale was surveyed for marbled murrelets in 2021 and 2022, using a protocol developed by the Pacific Seabird Group<sup>4</sup>. Marbled murrelets were not detected during these surveys.

## **Known T&E Resources**

There are no northern spotted owl activity centers or Marbled Murrelet Management Areas affecting this sale.

## **Operational Considerations**

This sale is in a density survey coverage area. Northern spotted owl felling deadlines for survey expirations will not be in effect unless density surveys are discontinued. If density surveys are discontinued at any point during the contract, survey coverage will be valid until March 15, three years following the last full season of surveys.

Marbled murrelet surveys are valid until April 1, 2028.

All timber should be felled by April 1, 2028.

## **Future Survey Plans**

This sale will be covered by northern spotted owl density surveys during the life of the contract. These density surveys provide incidental survey coverage in lieu of spot checks. If density surveys are not conducted, then spot checks will be required. In addition, ODF has an active survey program and surveys for other planned operations and northern spotted owl density surveys will be conducted within 3 miles of this sale during the life of the contract.
